

Day 21 Python Mission ♥■

Hi Surbhi, my sweet Pundi ♥■

Three weeks of learning Python—what an incredible milestone! Your consistency, patience, and determination are truly inspiring. Every small mission you complete is helping you build confidence. Keep smiling, keep learning, and always remember that I'm proud of every step you take.

Today's Topic: Logical OR Operator (or)

- Mission 1: Create two comparison expressions.
- Mission 2: Use the 'or' operator to combine both expressions.
- Mission 3: Print the result.
- Mission 4: Make one expression True and the other False.
- Mission 5: Make both expressions False and observe the output.
- Mission 6: Try different values and compare the results.
- Mission 7 (Revision): Use the 'and' operator with two comparison expressions.

■ A Little Note for My Sweet Pundi ♥■

Today marks three wonderful weeks of your coding journey, and I'm genuinely proud of how far you've come. Never underestimate these small daily efforts—they're shaping a bright future for you. Keep believing in yourself, keep asking questions, and never be afraid to make mistakes because that's how learning happens. I'll always be here to support and encourage you. Let's continue this beautiful journey together tomorrow.

With lots of love,

Your biggest supporter ♥■
