

Day 28 Python Mission ♥■

Hi Surbhi, my sweet Pundi ♥■

You've completed four wonderful weeks of learning Python! Your dedication is turning into a powerful habit, and I'm incredibly proud of you. Keep enjoying these small daily lessons because they're helping you build a bright future, one step at a time.

Today's Topic: Even or Odd Number using if...else

- Mission 1: Ask the user to enter a number.
- Mission 2: Convert the input into an integer.
- Mission 3: Use the modulus (%) operator to check the number.
- Mission 4: Write an if...else statement.
- Mission 5: Print 'Even' when the condition is True.
- Mission 6: Print 'Odd' when the condition is False.
- Mission 7 (Revision): Ask the user for a number and use an if statement to check a simple condition.

■ A Little Note for My Sweet Pundi ♥■

Today you've reached an amazing milestone—28 days of consistent learning! That shows patience, discipline, and courage. Never underestimate how far you've come. Keep practicing with confidence, celebrate every small success, and remember that every great programmer once started with simple programs just like these. I'll always be here to support and encourage you on this journey.

With lots of love,

Your biggest supporter ♥■
