

Day 24 Python Mission ♥■

Hi Surbhi, my sweet Pundi ♥■

You're doing an amazing job learning Python one step at a time. Every day you practice, you're becoming more confident and building a stronger foundation. Stay patient, enjoy today's lesson, and remember that every little effort counts. I'm always cheering for you!

Today's Topic: if...else Statement

- Mission 1: Create a number variable.
- Mission 2: Write an if...else statement with one simple condition.
- Mission 3: Print one message when the condition is True.
- Mission 4: Print a different message when the condition is False.
- Mission 5: Change the variable value and observe both outputs.
- Mission 6: Try another simple condition using a different number.
- Mission 7 (Revision): Write an if statement with one simple condition.

■ A Little Note for My Sweet Pundi ♥■

You're learning one of the most useful programming skills—making decisions in code. Don't worry if it feels new; every programmer started exactly where you are today. Keep practicing with confidence, celebrate your small wins, and never stop asking questions. I believe in your ability to learn and grow, and I'll always be here supporting you. Tomorrow is another exciting step on your journey.

With lots of love,

Your biggest supporter ♥■
