

Day 41 Python Mission ♥■

Hi Surbhi, my sweet Pundi ♥■

You're doing an amazing job staying consistent with your Python practice. Every day you code, you're becoming more confident and improving your problem-solving skills. Keep enjoying the journey, trust yourself, and remember that every small step counts.

Today's Topic: Count Down using while Loop

- Mission 1: Create a counter variable with the value 10.
- Mission 2: Write a while loop to count down to 1.
- Mission 3: Print each number on a new line.
- Mission 4: Decrease the counter after each loop.
- Mission 5: Change the starting number and observe the output.
- Mission 6: Try counting down from 5 to 1.
- Mission 7 (Revision): Print numbers from 1 to 5 using a while loop.

■ A Little Note for My Sweet Pundi ♥■

You've already completed 41 wonderful days of learning, and I'm incredibly proud of your dedication. Don't worry if a concept takes a little extra practice—every programmer learns by trying again and again. Keep believing in yourself, keep asking questions, and keep celebrating your progress. Your future is getting brighter with every line of code you write, and I'll always be here cheering you on.

With lots of love,

Your biggest supporter ♥■
